above table that if you have a yellow eye, it will have an impact on some plates in a Shoso-Choko chart, but if you have a blue eye or a green eye, it will have an impact on all four plates. 3. If your Chotoku is already on Binaural Sound Therapy, there will be a slight improvement with a Shoso-Choko chart, which in fact is a good sign. You can test the Shoso-Choko chart again and see if there is a change, but if there is no change, continue your Shoso-Choko treatments with the Binaural Sound Therapy. The more frequently you do Binaural Sound Therapy, the better your results will be. A Shoso-Choko chart can be used for a week or two, but if your vision is improving, a Shoso-Choko chart should always be 82157476af
