"MyPhone Book Dialer is a cross-platform utility built specifically for helping you store information about multiple contacts. One with easy to use interface and quick access to the dedicated parameters that allow you to add a new contact to the list." MyPhone Book Dialer is a cross-platform utility built specifically for helping you store information about multiple contacts. One with easy to use interface and quick access to the dedicated parameters that allow you to add a new contact to the list. You can delete contacts, edit the information, perform searches after the last name of the contact, as well as sort them in an alphabetical order. MyPhone Book Dialer enables users to view the first and last contact from the list, as well as the information about each contact. Dial the phone numbers via the application The highlight of the application stems from the fact that it is able to dial the phone number specified in the contact list, provided that you have a modem. During our testing we have noticed that the tool carries out a task quickly and without errors throughout the entire process. It doesn't eat up CPU and memory, so it remains light on the system resources. The lack of configurable settings can be good news only for the less experienced users who can set up the entire

operation with just a few clicks. Then again, it would have been nice if the app included more options, such as interrupting or cancelling the call, in case the recipient does not answer in a given interval. On the downside, it does not offer support for many advanced features, such as backup and exporting options, nor offer you the chance to automatically send email messages or add photos and notes to each contact. A minimalistic tool for storing your personal and business contacts To sum things up, MyPhone Book Dialer proves to be a simple-to-use software application that comes packed with limited features for helping you create a small database with contacts. ### **What's New In?**

The telephone number can be added by dragging the contacts from the list or clicking on the corresponding field. The application will attempt to find out the phone number according to the country, city, full name, or suffix of the phone number. If the number is already stored in the phone book and the country code is not found, the application will add the country code to the number using international standard prefixes. You can cut, copy, and delete the found number at any time from the list. A new number can be added using the tools that you can choose from the application.? I think she's pretty sweet. We are blessed to have each other to share this journey. I'm learning so much from her. So grateful for her in my life. A thinking wife. A friend. A mama. A sister. A cousin. An aunt. You name it. Saturday, July 9, 2014 We're in the midst of vacation mode here. For now, we've been doing a great deal of walking around the campus, taking lots of pictures. I am especially struck with how the whole campus has changed and grown since I was here last year. I will have more to say on that later. First, I want to say I'm so grateful that God has opened up a vision in my life to write my own series of books for Ambleside! I couldn't be more excited. Maybe this is the first tangible evidence of my new vision for ministry. I'm thrilled! In the past few months I have been studying the Bible for a couple years. For one of my other goals, I'm also committed to listening to personal audio versions of the Bible. This past Sunday at the worship time, Ambleside's Team Leader wanted us to join her to listen to the Psalms. We were supposed to listen to the audio to the Psalms individually, then record the book of Psalms in a Bible study/book group. She would then collect the group together to discuss them and share how the Psalms had spoken to them. The Bible Study for the week would include the study of Psalms. I'm not sure what happened when I was supposed to do this, because I never got around to it. I didn't even tell the team leader when our singing time was at the end of the worship time, so I didn't attend the Bible Study. Oh well. Earlier in the week I was reading about listening to audio versions of
